FOR IMMEDIATE RELEASE

US 101 Closures Begin for Pavement Rehabilitation

LOS ANGELES— The California Department of Transportation (Caltrans) is beginning a pavement rehabilitation project on US 101 near downtown Los Angeles to improve the condition of the lanes and create a smoother ride for motorists. This project will require full directional and 55-hour closures, the first of which will occur this weekend.

Saturday, July 14 (12:01 a.m. to 6 a.m.)

- Full freeway closure of northbound US 101 from 1st Street to I-10

A signed detour will be posted for motorists' convenience. Motorists should expect delays and are strongly advised to use alternate routes, avoid the area, or use public transit. Additionally, motorists can check traffic conditions before they leave by visiting the Caltrans [Quickmap](#).

RV Concrete, Inc. is the contractor on the \$15.8 million pavement rehabilitation project that is scheduled to last until winter 2019. Pending closures are planned for following weekends and subject to change.

California drivers will see more road repaving projects on freeways and highways as a result of SB 1, the state's new transportation funding. To find transportation projects in Los Angeles and Ventura County that Caltrans and local communities are investing in with SB 1 revenue, visit rebuildingca.ca.gov/map.html.

Caltrans reminds motorists to "Be Work Zone Alert" and "Slow for the Cone Zone."
